DETAILED ACTION

1. The amendments of 10/14/2005 have been entered in full. Claims 16, 20-24, 27, and 28 are under examination.
2. Rejection of claims 16, 20-24, and 27-28 under 35 U.S.C. 101 as claiming the same invention as that of claims 1, 4, 5, 11, 12, 13, 14, 15, and 20 of U.S. Patent No. 6,759,386 (6 July 2004) Franco, is hereby withdrawn in view of Applicant's amendments.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).
4. A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.
Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).
5. Claims 16, 20-24, and 27-28 rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 4, 5, 11, 12, 13, 14, 15, and 20 of U.S. Patent No. 6,759,386 (6 July 2004) in view of U.S. Patent 5,607,918 (4 March, 1997). The

currently amended claims are distinguished from those of the '386 patent by the recitation of VEGF-B as opposed to VEGF; the claim sets are otherwise identical as set forth in the prior statutory double patenting rejection. The instant specification is consistent with prior art in teaching that VEGF-B and VEGF are members of a family of structurally related growth factors. The '918 patent teaches that VEGF is expressed rather weakly by human heart tissue, but VEGF-B is very strongly expressed by the same tissue, and that this differential expression suggests that VEGF and VEGF-B act in subtly different ways such that VEGF-B has a specialized role in the heart (column 6, lines 3-13). Thus it would have been obvious to one of skill in the art at the time the instant invention was made to choose VEGF-B as the VEGF family member to use in the claimed methods with a reasonable expectation of success. Based on the teachings of the '918 patent, and in the absence of other distinguishing criteria, the skilled artisan would be motivated to choose VEGF-B as the VEGF family member mostly likely to be effective in the target tissue in which a response is desired. Therefore, the instant claims represent an obvious embodiment and are not patentably distinct from the generic claims of the '386 patent.

Conclusion

6. No claims are allowed.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
